

Examples of text for slide 16: exercise

8 pt

It is also important to know that when someone is old information retrieval is more difficult when the information is poorly designed. This includes all timetable information. Thus, for instance, a text in 12 pt. is barely legible for elderly people. Therefore, elderly passengers sometimes ask the driver questions even though there is a timetable available.

10 pt

It is also important to know that when someone is old information retrieval is more difficult when the information is poorly designed. This includes all timetable information. Thus, for instance, a text in 12 pt. is barely legible for elderly people. Therefore, elderly passengers sometimes ask the driver questions even though there is a timetable available.

12 pt

It is also important to know that when someone is old, information retrieval is more difficult when the information is poorly designed. This includes all timetable information. Thus, for instance, a text in 12 pt. is barely legible for elderly people. Therefore, elderly passengers sometimes ask the driver questions even though there is a timetable available.

14 pt

It is also important to know that when someone is old information retrieval is more difficult when the information is poorly designed. This includes all timetable information. Thus, for instance, a text in 12 pt. is barely legible for elderly people. Therefore, elderly passengers sometimes ask the driver questions even though there is a timetable available.
